PROFESSIONAL SUMMARY

B.Tech student at Kamla Nehru Institute of Technology (KNIT) with hands-on experience in full-stack web development, machine learning, and cloud technologies. Proven track record of delivering end-to-end applications using the MERN stack and Python. Passionate about scalable software, intelligent systems, and the intersection of AI and security. Active open-source contributor and startup ecosystem participant.

EDUCATION

Bachelor of Technology (B.Tech) Sep 2024 – Apr 2028

Kamla Nehru Institute of Technology (KNIT), Sultanpur, UP

Activities: Football, Coding, Startup Incubation | Skills: C, Java, Data Structures

WORK EXPERIENCE

Artificial Intelligence Intern 2025 – Present

EdXcellence (Remote)

- Developed AI-driven solutions leveraging Python for solving complex, real-world problems.
- Applied machine learning concepts to analyze and process datasets for model training and evaluation.
- Collaborated with senior engineers to build and test intelligent system components.

Machine Learning Intern Oct 2025 – Nov 2025

Codveda Technologies (Remote)

- Worked on cutting-edge ML and AI problems including data analysis, modeling, and algorithm optimization.
- Developed and tested machine learning models supporting the company's innovation goals.

Java Development Intern Jul 2025 – Aug 2025

Pinnacle Labs (Remote)

- Completed a structured Java development internship acquiring strong object-oriented programming skills.
- Designed and implemented Java-based modules improving code quality and application robustness.

Web Development Intern Jul 2025 – Aug 2025

CodSoft (Remote)

- Built responsive web interfaces using HTML, CSS, and JavaScript following modern best practices.
- Developed and deployed web application features aligned with client requirements.

Executive Member Nov 2025 – Present

Innovation, Incubation and Startup Foundation – KNIT

- Actively support startup initiatives and innovation programs within the KNIT campus ecosystem.
- Facilitate events, mentorship sessions, and collaboration between student entrepreneurs.

PROJECTS

SugarWatch Mar 2026 – Present

Tech: Node.js, Express.js, EJS, MongoDB, JavaScript, Cloudinary, Docker, Mapbox

- Designed and built a health-tech web application enabling users to monitor and manage daily sugar intake.
- Integrated barcode/product scanning features for real-time nutritional tracking.
- Deployed using Docker and cloud services for scalable, production-ready performance.
- Utilized Mapbox and geocoding APIs for location-aware features.

Photography Site Jan 2026

Tech: HTML5, CSS

- Developed a fully responsive photography portfolio website using semantic HTML5 and advanced CSS.

- Demonstrated core front-end fundamentals with clean, maintainable code structure.

React Todo App²⁰²⁵

Tech: React.js

- Built an interactive task management app using React with component-based architecture and state management.

EasyRest (Open Source)²⁰²⁵

Tech: JavaScript

- Created and published EasyRest, an open-source JavaScript utility library on GitHub.
- Contributed to the open-source community by maintaining public repositories and documentation.

OPEN SOURCE CONTRIBUTIONS

- Forked and contributed to pmndrs/drei – a popular React Three Fiber helper library (JavaScript).
- Forked and contributed to maplibre/maplibre-gl-js – interactive vector tile map rendering library (TypeScript).
- Published and maintained EasyRest as an open-source JavaScript project on GitHub.
- Maintained public repositories including React-Todo-App and SugarWatch with documentation and version control.

CERTIFICATIONS & LICENSES (15)

Power BI Micro Course | SkillCourseMar 2026

Critical Thinking in AI Era | HPMar 2026

Electronic Arts – Software Engineering Job Simulation | ForageJul 2025

Deloitte Australia – Technology Job Simulation | ForageJun 2025

DevOps on AWS | AmazonJul 2025

Elements of AI | MinnaLearnJul 2025

MongoDB by IBM | IBM2025

Apna College – Web Development | Apna College2025

Apna College – Data Structures and Algorithm | Apna CollegeDec 2025

Adobe Hackathon – Certificate of Participation | Adobe2025

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, C, Kotlin, SQL

Frontend: HTML5, CSS, React.js, React Native, EJS, Bootstrap, TailwindCSS, Three.js

Backend: Node.js, Express.js, FastAPI, Flask

Databases: MongoDB, MySQL, PostgreSQL, Supabase

AI/ML: Python, NumPy, Pandas, scikit-learn, TensorFlow, PyTorch, Matplotlib

DevOps & Cloud: Docker, Kubernetes, AWS, Netlify, Render, Jenkins, Git, GitHub

Tools: Postman, Cloudinary, Mapbox, Microsoft Power BI, Canva, Operative Dashboard
